Personal information

First name / Surname	Federica Vigna-Taglianti	
Telephone	+39 011 9026061	+39 011 40188305
Fax	+39 011 9026063	
E-mail	federica.vignataglianti@unito.it	
Nationality	Italian	
Date of birth	20/01/1970	
Gender	female	

Overall profile

Federica Vigna-Taglianti is Associate Professor of Public Health and Epidemiology at University of Torino. For many years she collaborated with the Piedmont Centre for Drug Addiction Epidemiology in North West of Italy. She participated to the study design, conduction, statistical analysis and results dissemination of several European Studies: GENAIR, a trans-national cohort study for the evaluation of relationship between environmental pollutants and lung cancer; HYENA, a trans-national cross-sectional study on exposure to noise and hypertension; EU-Dap, a cluster randomized trial conducted in 7 European countries for the evaluation of effectiveness of the school-based program Unplugged in preventing tobacco, alcohol and substance use among adolescents, and to the VEdeTTE and VOECT Italian cohorts of heroin, cocaine and alcohol dependents treated at NHS addiction services and in Therapeutic Communities. She also coordinated the evaluation of effectiveness of Unplugged in several replication trials, the most recent in Nigeria.

Her research interest concern the evaluation of effectiveness of treatments and prevention interventions for tobacco, alcohol and drug addiction and abuse, with specific focus on adolescent health, gender differences and health inequalities. She is currently involved in a cohort study on mortality and comorbidity of psychotic patients of the city of Torino. She has conducted several systematic reviews on behalf of the Cochrane Collaboration Drugs and Alcohol Group. She published more than 60 papers in international journals, and she presented results of research in many national and international conferences.

Research interests

- Tobacco, alcohol and drug addiction epidemiology
- Evaluation of effectiveness of treatments and prevention interventions for drug addiction
- Mental health: epidemiology and treatment
- Gender differences in health
- Methods in Epidemiology: study design, statistical models, quality assessment
- Systematic reviews
- Environmental Epidemiology: evaluation of correlations among environmental factors and health
- Surveillance of Infectious Diseases

Work experience

January 2020	National Abilitation as Full Professor of Public Health
From 2015	Associate Professor of Public Health, Department of Medical and Biological Sciences, University of Turin, Italy
From 2003	Epidemiologist at the Centre for Drug Addiction Epidemiology of the Piedmont Region, Grugliasco (TO), Italy
June 2015 – February 2018	Consultant for UNODC (United Nations Office on Drugs and Crime) for design, conduction, data analyses and scientific report of a randomized controlled for the evaluation of the effectiveness of the school-based prevention program "Unplugged" in Nigeria
October 2010-June 2015	Public Health researcher, Department of Clinical and Biological Sciences, University of Turin, Italy

January 2014	National Abilitation as Associate Professor of Public Health
February 2010-August 2010	Epidemiologist at Regional Centre for Infectious Diseases Surveillance (SeREMI), ASLAL, Alessandria, Italy
December 2002-February 2010	Contracts as epidemiologist for the Piedmont Centre for Drug Addiction Epidemiology, Grugliasco (TO), Italy
November 2003-October 2006	Contract as epidemiologist for the conduction and organization of the field work in the European project "HYENA: Hypertension and Exposure to Noise near Airports", Environmental Epidemiology Unit, Piedmont Region, Turin, Italy
March-September 2003	Contract as epidemiologist for the exposure assessment in the GENAIR European project, Department of Medical Sciences and Human Oncology, University of Turin, Italy
Education and training	
October 2008-September 2011	PhD in Clinical and Experimental Medicine , Avogadro University, Novara
September 2011	Short course on concepts and methods in Causal Inference, II Edition , SISMEC Working Group, Villa Gualino, Torino (Italy)
February 2007	Course on Statistical Multivariate Methods for Cluster Analysis , Department of Statistics, University of Bologna (Italy)
February 2005-January 2007	Postdoctoral Fellowship "Analysis of a cluster randomized clinical trial, EUDAP project", Department of Clinical and Experimental Medicine, Avogadro University, Novara
September 2003-December 2004	Fellowship for the project "Quality assessment of systematic reviews used in guidelines for oncology practice", Department of Medical Sciences and Human Oncology, University of Turin (Italy)
May 2004	Advanced Statistical Modelling course, London School of Hygiene and Tropical Medicine, London, UK
October 1998-November 2002	Public Health Diploma , Hygiene, Public Health and Preventive Medicine School, University of Turin
June and October 2003	Temporary adviser for the European Project GENAIR, European Centre for Environment and Health, World Health Organization, Bonn Office, Germany
September 2000-2001	Epidemiology Master Course , London School of Hygiene and Tropical Medicine, London, UK. Completion of the following courses: advanced epidemiology, advanced statistical methods, critical reading, probability and sampling, social research, environmental epidemiology, basic demography, epidemiological study design, epidemiology and control of communicable and non communicable diseases Final dissertation: "Tuberculosis in Turin, 1973-1994: trends in incidence and risk factors for extra-pulmonary manifestations" Supervisor: S Thomas
March 2001	Cancer Epidemiology Short Course , London School of Hygiene and Tropical Medicine, London, UK
February 2000	Migration and health in Europe , European Master Module: Health Policy in Europe, Institut Interuniversitaire de Santé Internationale Charles Mérieux - Annecy, France
April 1996	Degree in Medicine , Medical School, University of Turin, Italy
Teaching	
Since 2015	Community Medicine course at the Health Education Specialization at the Psychology School of University of Torino
Since 2013	Applied Epidemiology course at the Public Health Specialization of the Medical School of University of Torino
Since 2010	Public Health course at the Medical School of University of Torino
Since 2009	Evidence Based Medicine at the Medical School of University of Torino, location: San Luigi Hospital, Orbassano
Since 2003	Epidemiology course at the Nurses School of University of Torino, location: Torino and Cuneo

Since 2003 Health Promotion and Disease Prevention course at Nurses School of University of Torino, location: Torino and Cuneo

Research experiences

Tobacco, alcohol and drug use prevention	<p>UNODC Nigeria Unplugged: coordination of cluster RCT for the evaluation of effectiveness of the Unplugged program in 7 federal zones of Nigeria</p> <p>Parental influences and other risk factors for tobacco, alcohol and drugs use among adolescents, using data from the EU-Dap studies</p> <p>Mechanisms of effect of Unplugged program: definition of theoretical model of the program, study of targeted mediators, interaction effects, mediation analysis</p> <p>EU/USA partnership to understand differences in the effect of two comparable prevention programs: conduction of parallel analyses, interpretation of differences, reporting</p> <p>ROMENA project: coordination of cluster RCT for the evaluation of effectiveness of the Unplugged program in 5 Arabic countries</p> <p>Mentor Unplugged project: coordination of cluster RCT for the evaluation of effectiveness of Unplugged program in 5 East European countries, conduction, analysis and reporting</p> <p>The EUDAP2 project: organization and conduction of evaluation of strategies for dissemination of effective school-based prevention interventions</p> <p>The EUDAP cluster randomized trial: statistical analysis and reporting of effects of a school-based comprehensive social influence program (Unplugged) for preventing tobacco, alcohol and drugs use among adolescents</p> <p>Primary Prevention Strategies for tobacco, alcohol and drug use: conduction and publication of an overview of the evidence</p> <p>School-based prevention for illicit drugs' use: conduction and publication of a systematic review on behalf of the Cochrane Collaboration</p>
Alcohol dependence	<p>Gamma-hydroxybutyrate (GHB) for treatment of alcohol withdrawal and prevention of relapses: conduction and publication of a systematic review on behalf of the Cochrane Collaboration</p> <p>Personality disorders among inpatients alcoholics: conduction, analysis and reporting of a study investigating prevalence and gender differences</p>
Heroin addiction	<p>The VOECT study: organization and conduction of the multicentric Italian evaluation of residential community treatments for drug addicts</p> <p>VEdeTTE nested case-control study: evaluation of risk of acute death among heroin addicts enrolled in the Vedette cohort and relationship with type of treatment and treatment status</p> <p>Gender differences among heroin addicts: analysis and reporting of a study on risk factors on the VEdeTTE Italian cohort</p> <p>Effectiveness of therapies for heroin addiction on retention in treatment and mortality: analysis and reporting from the italian Vedette cohort study</p> <p>Methadone maintenance at different dosages for opioid dependence: conduction and publication of a systematic review on behalf of the Cochrane Collaboration</p>
Mental Health	<p>Design and conduction of a study investigating the influence of dietary habits on the risk of developing Alzheimer and dementia in the EPIC cohort</p> <p>Design and conduction of a study investigating the effect of antipsychotic treatment on mortality risk of patients discharged from hospital with schizophrenia, bipolar disorder and other psychoses, from 1997 to 2010</p> <p>Design and conduction of a study investigating mortality excess of patients discharged from hospital with a diagnosis of schizophrenia, bipolar disorder and other psychoses, from 1997 to 2010</p>
Lifestyles	<p>Design and conduction of a randomized controlled trial for the evaluation of effectiveness of an educational intervention for promoting health lifestyles in type 2 diabetes patients</p>
Migration and Health	<p>Design and conduction of a study on the health impact of opening a psychological service dedicated to migrants parents and their children</p>
Environmental epidemiology	<p>The HYENA Study: assessment of the effect of exposure to airport noise on prevalence of hypertension, organization and conduction of Italian field work</p>

	GENAIR study: conduction and reporting of a nested case-control study on incidence of lung cancer among non-smokers participants to the EPIC cohort and relationship with the exposure to air pollution																								
Infectious	Syphilis infection in Piedmont Region from 2002 to 2008: study on trends and risk factors Surveillance of tuberculosis outcomes in Piedmont from 2008 to 2010 Tuberculosis in Turin, 1973-1994: study about trends in incidence and risk factors for extra-pulmonary manifestations																								
Quality assessment	Quality assessment of systematic reviews used in guidelines for oncology practice: evaluation of quality adapting the QUOROM checklist																								
Experience in reviewing papers	More than 40 papers reviewed for international and national peer-reviewed scientific journals																								
Personal skills and competences																									
Mother tongue	Italian																								
Other language	English

Research skills and competences	Skills in conducting and organizing epidemiologic studies: case control studies, cohorts, RCTs, surveys. Skills in managing collaborative projects funded by EU calls																								
Technical skills and competences	Statistical analysis skills developed and regularly updated. Responsibility of statistical analysis of the EUDAP trial, the Mentor IKEA and the ROMENA replication trials, the VEdeTTE cohort study. Good use of statistical software such as STATA and MLWin, EpiInfo.																								
Computer skills and competences	Good use of Microsoft Word, Excel, PowerPoint, Access, and Procite. Good use of RevMan for the analysis of systematic reviews.
